

The Fast-Trac™
to Improved
Safety & Health

Let us put your mind at rest.
We take the guess work out of OSA/Fatigue Management Programs.

SleepSafe® offers railroads and other high-risk industries, like motor carriers, a complete turn-key and cost effective OSA/fatigue management program that addresses sleep apnea testing, treatment and PAP utilization. Our solutions include both portable and comprehensive sleep services with best in class turnaround times and adherence to treatment results.

Fast-Trac™ Fatigue Management Programs

- Tested, treated and back on the job in as few as 1-3 days
- Documented reduced costs and increased safety
- Over 96% PAP utilization success

ADVANTAGES FOR YOUR ENGINEERS AND TRAIN CREWS:

- A focus on employee health and safety
- Minimized lost time
- Top-of-the-line PAP treatment devices and supplies
- Little to no out-of-pocket costs
- Superb treatment and PAP utilization support
- Commitment to keeping your operators on the job and safely at the controls

SLEEPSAFE DRIVERS PROGRAM OVERVIEW

→ SLEEPSAFE® SURE-ID® DIAGNOSTICS TESTING

We offer both portable and in-lab testing for employees at the location of their choice with FDA- and AASM-approved devices. This allows **rapid turnaround times of 1-3 days**. Our experienced clinical team has conducted thousands of portable tests and our unique **SleepSafe® Sure-ID® ensures accuracy and mitigates chain of custody fraud concerns**.

→ SURE-COMPLIANCE® TREATMENT

Our **documented PAP utilization is 96+%**, vs 50% industry average. When an employee fails to adhere to treatment, their job and health are at risk, creating additional costs and staffing issues for the employer. SleepSafe's treatment approach and PAP Utilization Monitoring Protocol are designed to maximize treatment adoption and employee retention benefiting employee and management alike.

→ ECONOMIC & SAFETY BENEFITS

Similar results have been found across different transportation modalities—documented reductions in accidents & expenses

Our multi-year sleep study with J.B. Hunt, published at the SLEEP Conference 2014, documented:

- **53% reduction in accidents**
- **55% reduction in hard braking**
- **56% reduction in medical costs**

Combining these reductions, a positive ROI will be seen within the first year. Studies have shown a **70% reduction in workplace injury claims** when employees are treated for OSA. Also, a significant savings from reduced absenteeism, as well as, reduced liability and insurance costs are likely over time.

Numerous OSA and transportation studies are available upon request.
